

GT800 Multifunctional Vehicle Tracker

The GT800 GPS vehicle tracker is a high-end, multifunctional vehicle tracker with solid performance and reasonable price. In addition to GPS and AGPS tracking, it supports door status detection, two-way communication as well as SOS call. The IP66 dust and waterproof rating means that the GT800 can stand up to the toughest of driving conditions, allowing you to constantly keep an eye on your fleet.

GPS & LBS Positioning

IP66 Dust & Water Resistance

50,000 Data Storage

Emergency SOS Button

Remote Cut-Off (Fuel/Power)

Two-Way Communication

RS232 & TTL Serial Port

Multiple I/Os for Sensors/Peripherals

Market Applications

Vehicle Tracking

Truck Logistics

Fleet Management

Parameters

GSM frequency	850/900/1800/1900MHz
GPS chipset	MTK high sensitivity chip
Voice monitoring range	≤5 meters
Battery	800mAh/3.7V Li-Polymer battery
Working voltage/current	9-36VDC/45mA(12VDC), 28mA(24VDC)
Operating temperature	-20°C~+70°C
Dimension	93.0*76.0*18.0mm
Weight	91.7g
